## PROJECTS

### SUPER MARKET MANAGEMENT SYSTEM

2021

The E-Mart Shop Management System is a comprehensive software solution designed to streamline and automate various processes involved in the operation and management of a retail store. This system helps in enhancing customer experience, optimizing inventory management, and facilitating smooth transactions.

#### SKILLS

- .NET Framework
- C#
- SQL ( Relational Database )

## Technical Skills

- Object C
- C#
- Java
- Python
- C++
- Flutter
- React/ PHP/ HTML/ Java Script
- MySQL/SQL Server/SQLite

### FOOD DELIVERY MOBILE APP

2022

This smartphone app is designed for sandwich delivery, with three primary user roles: Customers, Administrators, and Delivery personnel. Customers can browse and order various sandwich options, while Delivery personnel can monitor and update customer locations. Administrators have access to completed orders and can manage the menu, including adding item photos. The app is built using Java, utilizing a SQLite database for data storage and the Preferences library for app-specific data caching. In essence, it streamlines the sandwich delivery process, making it convenient for all parties involved.

#### SKILLS

- Android ( Java )
- SQLite

## Skills

- Mobile-Application Development
- Front-End Development
- Back-End Development

## Education

### DIPLOMA IN SOFTWARE ENGINEERING

NIBM  
2021-2022

### HND IN SOFTWARE ENGINEERING

NIBM  
PRESENT
